

As part of a product and service relaunch Prolateral releases the new proTalk2 website.

Prolateral Operations Director, Ian Chilvers comments. "We specialise in e-services and VoIP technology is a rapidly growing market. In the last 12 months we have seen a significant growth in this area of our business so it seemed right to give it it's own website"

About Prolateral

Prolateral Consulting is in business to put your organisation back in control of your own Information Technology, specialising in information and messaging security, computer forensic services, and disaster recovery planing.
